Supplementary Material

Supplementary Material S1 The six simple questions survey results

Survey 1: Please think about the care you have received during this pregnancy and select the number which best indicates your agreement or disagreement with each of the following statements.

1. I had appropriate and adequate control over my care.
   Strongly disagree                         Strongly agree
   1 2 3 4 5 6 7

2. The person(s) responsible for my care are/were caring and compassionate.
   Strongly disagree                         Strongly agree
   1 2 3 4 5 6 7

3. Problems that have arisen up to now have not been dealt with effectively.
   Strongly disagree                         Strongly agree
   1 2 3 4 5 6 7

4. My needs have been addressed with appropriate consideration for my time.
   Strongly disagree                         Strongly agree
   1 2 3 4 5 6 7

5. The overall organization of my care has not been appropriate.
   Strongly disagree                         Strongly agree
   1 2 3 4 5 6 7

6. I would choose the same type of care for my next pregnancy.
   Strongly disagree                         Strongly agree
   1 2 3 4 5 6 7

Supplementary Material S2 The Lady-X survey

Survey 2: Circle the answer that best describes your experience during labor and birth. If you are in doubt between two answers, please choose the answer that is closest to your experience. There are no wrong answers; any answer that reflects your experience is correct. The term health care professional(s) means all health care providers who were involved in the childbirth. For example, nurses, physicians, or maternity nurses.

1. Presence of expert healthcare professionals during childbirth
   a. I felt that expert health care professionals were present at all times when necessary
b. I felt that expert health care professionals were present most of the time when necessary

c. I felt that expert health care professionals were rarely present when necessary

2. Information given by the health care professionals during childbirth
   a. I felt very well informed by the health care professionals
   b. I felt adequately informed by the health care professionals
   c. I felt inadequately informed by the health care professionals

3. Taking your wishes seriously during childbirth
   a. I felt that the health care professionals took my wishes very seriously
   b. I felt that the health care professionals took my wishes sufficiently seriously
   c. I felt that the health care professionals took my wishes insufficiently seriously

4. Emotional support by health care professionals during childbirth
   a. I felt very well supported by the health care professionals
   b. I felt adequately supported by the health care professionals
   c. I felt inadequately supported by the health care professionals

5. Feeling of security during childbirth
   a. I felt very safe
   b. I felt sufficiently safe
   c. I felt insufficiently safe

6. Worries about the health of your child during childbirth
   a. I was not worried about my child’s health
   b. I was somewhat worried about my child’s health
   c. I was very worried about my child’s health

7. Time until the first contact with your child
   a. Given the situation, I found that it did not take long until I had contact with my child for the first time.
   b. Given the situation, I found that it took quite a long time until I had contact with my child for the first time.
   c. Given the situation, I found that it took a very long time until I had contact with my child for the first time.
