

## Future EFSUMB CEUS Webinars

### Webinar 2 (liver/breast/thyroid)

Assessment of the spatial and temporal contrast wash-in and wash-out pattern with dynamic CEUS and the clinical impact to characterise focal lesions in different organs (liver, breast, thyroid)

Chair Emilio Quaia  
Qiang Lu  
Huixiong Xu  
Yukon Luo

### Webinar 3 (abdominal intracavitary, VUR, HyCoSy)

Technique of the intracavitary administration of ultrasound contrast and clinical value of the imaging of cavitory structures (abdominal cavities, urinary tract, fallopian tubes) with CEUS

Chair Christoph Dietrich  
HuongChang Luo  
Li Zhang  
Rongqin Zheng

### Webinar 4 (vascular CEUS)

Assessment of the vascular system with dynamic CEUS (aortic aneurysm, carotid plaques, vascular rupture) and advantages versus static angiographic modalities in radiology

Chair Henrik Sillensen  
Daniel Staub  
Dirk Clevert  
Paul Sidhu

If you missed any webinars you can watch them again on the EFSUMB webinar archive <http://www.efsumb.org/blog/webinar-archive-2>
