published online: 2022-11-16

In the above-mentioned article a specification in Table 2 was not correct. The corrected Table 2 is shown below. This was corrected in the online version on April 14th, 2023.

► **Table 2** Vascular complication diagnosis by DUS categorized per period. For each vessel the reference standard diagnosis and the true- and false-positive cases are specified.

			Perioperative	Days 1-7	Days 8-365	Total
Hepatic artery						
	Thrombotic	TP	2	2	1	5
		FP		1		1
	Kinked	TP	4	4		8
	Extrinsic compression	TP		2		2
	Significant stenosis	TP	1	2		3
	Total		7	11	1	19
Portal vein						
	Thrombotic	TP	5	5	1	11
	Kinked	TP		2		2
	Significant stenosis	TP		4	6	10
		FP	2	1		3
	Total		7	12	7	26
Hepatic vein						
	Thrombotic	TP	1			1
	Extrinsic compression	TP		2		2
	Significant stenosis	TP		4		4
	Total		1	6		7
Total			15	29	8	52
