

CORRECTION**Impact of long-term transmural plastic stents on recurrence after endoscopic treatment of walled-off pancreatic necrosis**

David M de Jong, Pauline M. C. Stassen, Ivo G. Schoots et al. Impact of long-term transmural plastic stents on recurrence after endoscopic treatment of walled-off pancreatic necrosis
Endoscopy 2024; doi: 10.1055/a-2307-7123.

In the above-mentioned article Figure 1 has been corrected. Correct is that the PFC recurrence for “Stent removal after a median of 3.4 months” is “n = 39; 25.5%”. This was corrected in the online version on September 18, 2024.
