Palladium-Catalyzed Synthesis of 3-Indolecarboxylic Acid Derivatives

Björn C. G. Söderberg,* Serge R. Banini, Michael R. Turner, Aaron R. Minter, Amanda K. Arrington *Synthesis* **2008**, 903.

Entries 8–10 of Table 1 contained several errors: the yields of compounds **10** and **11** were switched and the nitrogen atom in the ring of compound **12** was misplaced. The correct entries are shown below:

Table 1 Synthesis of 3-Substituted Indoles

Entry ^{a,b}	Nitroarene	Nitroalkane	Nitroalkene	Indole
8 ^c		 10 (5%)	 21 (68%)	 31 (79%)
9 ^c		 11 (57%)	 22 (58%)	 32 (96%)
10 ^c		 12 (9%)	not further examined	

^a For procedural details, see the experimental section.

^b Isolated yields are shown in parentheses.

^c Compounds **10–12** were obtained from the same reaction in the yields given.

In addition, compound **10** should be **11** and vice versa throughout the entire paper. On page 904, column 1, 7th/8th line from the bottom, the end of the sentence should read as follows:

“... three 3-nitropyridine products **10–12** in an ~1:11:2 ratio (entries 8–10).”

The correct name of compound **12** in the experimental section should be “Butyl 2-[6-(*tert*-Butoxy)-3-nitro-2-pyridyl]ethanoate”.

The authors apologize for the mistakes.
