

Evolutionary Origin of a Preprotein Translocase in the Periplastid Membrane of Complex Plastids: a Hypothesis

A. Bodyl

Department of Biodiversity and Evolutionary Taxonomy, Zoological Institute, University of Wrocław, Wrocław, Poland

Erratum

The second to last sentence in the third paragraph of page 2, right column should read as:

“However, unlike plastid proteins, the transit peptides of periplastid proteins would be cleaved off already in the periplastid compartment by a specific peptidase.”
